Hazelton, Pa., Oct. 1.—President Mitchell at noon today said "The strike is practically complete and there will be no resumption of work without there first being a convention representing every colliery in the anthracite field. "Accompanied by the national board members I shall go to Wilkesbarre tomorrow to attend a great labor demonstration which will be participated in by fully 20,000 men."

WAIT FOR THE WORD.

Will Be No Defections From Ranks of the Strikers.

Scranton, Pa., Oct. 1.—There was not a single defection reported from the ranks of striking miner workers in the Lackawana region today despite the report of a ten percent wage increase on the part of the mining companies.

General Superintendent Loomis of the Delaware, Lackawana & Western company, said there would be an operator's meeting at Wilkesbarre this afternoon at which some definite announcement were likely. It is understood representatives of the big financial interests behind the coal-carrying railroads will be present.

present.

The strikers here about say they will not, under any circumstances, return to work until the official word is given them.

LOSE FIVE COLLIERIES.

Reading Company Output Is a Merc Bagatelle.

Philadelphia, Pa.,Oct. 1.—According to the official report of General Superintendent to President Harris this morning but seven of the thirty-nine collieries operated by the Reading company started up this morning. This indicates that in spite of the offer of an advance in wages often per cent the company is working five less mines today than on Saturday.

MINERS' FLAG MARCH.

Markle Brothers Want No Sheriff or Soldiers.

Hazelton, Pa., Oct. 1.—Another march with the Calvin Pardee collieries at Pardeeville, five miles from here, as the objective point, took place early today. About 300 striking miners from Freeland started for Lattimer, and a little later 100 strikers set out from Hazelton for the same place. The two bodies united east of Lattimer and marched into the town at 4 o'clock. Each striker carried a small American flag. The marchers adopted the same tactics as were employed at Hazelbrook last week, going to the homes of all non-strikers ahd quietly asking them to refrain from continuing at work. They also covered all the roads leading from the surrounding towns to Lattimer. The strikers claim they succeeded in getting nearly 400 men to quit, but the company officials say they did not get anywhere near that number.

Sheriff Harvey of Luzerne county arrived at Lattimer just as the mine whistles blew for the starting of work at 7 o'clock. He found nothing to do, however, as all the men were conducting themselves in an orderly manner. After starting time, the strikers again formed in line and marched through the town, after which they dispersed.

All was reported quiet in the Panther Creek valley this morning. Reports from the various collieries throughout the Hazelton district show that practically the same number of men were working as on Saturday, excepting at Lattimer. The only colliery where a notable change occurred was that of A. Pardee & Co. at Cranberry, where some of the "lockie" engineers and some of the driver boys struck, thus further crippling the working. A "lockie" is a diminutive locomotive.

Miles City, Mont., Sept. 30.—Philip Dallankopf, a German, employed on the Northern Pacific at Rosebud, Montana, lankopf, a German, employed on tare while standing on a plank over the pit at the coal docks, talking to one of the men in the car, lost his balance and fell a distance of fifteen feet, striking on his head on the concrete bottom of the pit, breaking his arm and leg and crushing a hole in the front part of the skull. Dr. Smith of Glendive, Andrus and Matthews of Miles City attended. He is not expected to liwe. He has a brother, Max Dollankopf, at Waverly, Iowa.

Martin Ogan, a young man employed on Sam Gordon's premises, was kicked last night by a horse, breaking his jaw in three places, also his nose and palate. It was dark and it is supposed the horse became frightened. He was found in an unconscious condition.

The democratic county convention meets here to-morrow. They are likely to run Skew Johnson for state senator against Kent McLain.

KITCHENER NOT IN IT.

Speculation in England Over the New Appointments.

New York, Oct. 1.—The appointment of Lord Roberts to succeed Lord Wolseley as commander in chief of the British army and all along been expected, says the London correspondent of the Tribune, but the official announcement made last night can only be regarded, in view of the general election, as a clever political maneuver. With Lord Roberts as commander in chief, the question of appointing a new secretary for var will be reduced in importance, as the very fact of the hero of the South African campaign being in supreme command, will be in itself a guarantee of war office reforms. Lord Wolseley, it is well known, could, two or three years ago, have had the governor generalship of Canada, but on account of the exigencies of military affairs at the time, he did not see his way to resign the commandership in chief. Had he done so, the appointment would have gone to the duke Connaught. Now, however, the queen's son will have to be content with his present office of commander of the forces in Ireland, General Buller should succeed Lord Roberts in South Africa. He will be the senior officer there when the field marshal leaves, and there are several others who rank before Kitchener. Co. was asked how many returned to work in the collieries today, he replied that "all the mines are working." The strike leaders said there were very few men in the Markle works. The firm owns mines and usually employs 2,500 men.

Sheriff Harvey is authority for the statement that most of the Freeland men who marched to Lattimer this morning intended to stop at the Markle No. 5 Jeddo mine on their way home. John Markle, he says, met the Freeland men at the outskirts of Jeddo. He found Sheriff Harvey with the marchers and told him his services were not needed. Upon joining the men, Mr. Markle marched with them to a schoolhouse near the No. 5 collieries, where he persuaded the strikers to go.

GUERRILLA REVOLUTION.

Colombian Malcontents Take to the Back Woods.

Will Concentrate Interests.

Pottsville, Pa., October 1.—It is said on excellent authority that should more men at Minersville go out on strike, the Reading will immediately issue orders to close up the Glendower and Richardson colleries for all time. This would necessarily seal the fate of the many residents in that section, for there would then be the East Ridge colliery in the whole valley, employing 200 men. In the west end of that district, all are reported at work. The Reading company officials, declare that after the trouble is over, the operations will be more concentrated, which may mean an abandonment of some of the mines. Their polley today is to have armed deputies stationed where employes actually want to work but are afraid of intimidation. They do not however, intend to aggravate the strikers by calling on the military. The soldiers are remaining around Shenandoah, Glendower annd Richardson, and the Phoenix Park and Otto colleries, all of which, if working at all, are working short handed.

The strike leaders allege that they have made enough converts in the Panther Creek valley to bring out some of the men and it is believed that there some of the earmed deputies will be found today. The company ships its coal over the Jersey Central railroad.

The Reading company is sending a large number of its coal cars into the bituminous coal fields in Middle Pennsylvania and also in West Virginia. Last night no less than 500 of these care were delivered to the Baltimore & Ohio road at Cherry Run and 100 or more are being turned over to the New York Central at Newberry Junction. It is reported that the order of President Mitchell to the soft coal miners not to load coal for the Reading and Anthracite carrying companies may lead to trouble. New York, Cct. 1.—The Heram's correspondent in Bogota says no action win be taken on the protocol recently signed by Minister Uribe and the government of Ecuador. The protocol is not approved because of the Colombian authorities waiting for important data in regard to the attitude of Ecuador in regard to the settlement of the southern frontier of Colombia. Colombia is also investigating whether Ecuador has been in connivance with Venezuela. In the meantime the Colombian government has given orders to the military authorities in the Ecuadorican frontier to maintain the strictest neutrality. The liberal revolution is now limited to guerilla warfare in the departments of Marca, Cuindana and Tol'ma. The revolutionists in the north, commanded by Gen. Santos, have offered to capitulate. Gen. Pinzan, the hero of the northern campaign, became minister of war on Sept. 17. The Marroquin government is now recognized by the diplomatic corps residing in Bogota. Communication between Lake Marcacibo and Ecuador has been established.

AFRAID OF WALDERSEE.

Desire to Make Fighting Reputation Will Start Partition.

New York, Oct. 1.—A special to the Herald from Washington says: Great Britain is playing international politics in connection with the German proposal that the surrender of responsible authors of anti-foreign outrages be made a condition precedent to negotiation with the Chinese government. Well informed diplomats here believe that she has delayed her reply to learn the character of those of the other powers, and its effect upon the Chinese. Lord Salisbury has no desire to offend Germany. Her attitude during the war in South Africa has not been overlooked, nor does Great Britain forget, in view of the independ-San Francisco, Oct. 1.—The headquarters of the new president of the Southern Pacific company will be in this city and not in New York, according to a statement of J. C. Stubbs, second vice-president of the company, made on his return from a three-weeks trip in the east. He also said that the work that C. P. Huntington had done would be split up between the chairman of the board of directors in New York and the president with his offices here. Chairman Tweed will continue to manage the financial business of the company and the new president will handle the administrative affairs. Mr. Stubbs said he did not expect a president to be selected for some time. nas no desire to offend Germany. Her attitude during the war in South Africa has not been overlooked, nor does Great Britain forget, in view of the independent attitude of the United States, that it may be necessary for England to co-operate with Germany to prevent Russia and France from obtaining larger slices of China than herself in case of partition. So, it is understood here that Lord Salisbury has believed it politic to give long consideration to the German proposal and that the degradation of Prince Tuan and other princes by the imperial government of China will probably be the loophole through which he will crawl. So far as this government has been informed, Germany has not modified her proposal, though it is likely that she w... do so in view of the objections of the other powers. It is stated in official circles that this government contemplates making no representation respecting partition, such as seems to be anticipated in Berlin. It is feared that partition will be the only solution of the situation and the authorities are encouraged by the change in the attitude of the Chinese government to make renewed efforts to effect a settlement, which will preserve the territorial entity of the empire. A diplomat observed last night that none of the powers could in honor agree to the dismemberment of China because they had in explicit terms, announced that their purpose was the maintenance of the territorial integrity of the empire. What the officials fear, however, is that Count von Waldersee, anxious to gain military laurels, will find in the situation a reason for offensive operations, giving a pretext for Russia to make permanent her occupation of, northern China. Once this is done, the division of the remainder of the territory among European powers and Japan will be precipiated.

AMERICAN KILLED LAWTON.

Chicago, Sept. 30.—A special to the Record from Salt Lake, Utah, says: Leon Mayhure, a private in troop A. Eleventh United States cavalry, who returned from the Philippines to-day, was present when General Lawton was killed near San Mateo. He saw the shot and says the man who did the deed was a deserter from the United States army. He says:

"We reached the outskirts of San Mateo at daylight and began firing about 8 o'clock. I was with the skirmish line within 50 yeards of General Lawton and we saw a man in black trousers showing conspicuously among the white uniforms of the insurgent officers coming out on the tower of the church. He surveyed the ground in which we stood very carefully, then raised his musket and fired. At that instant, General Lawton, who was dismounted, moved his hand across his face as if to brush away an insect, and sank to his knees. We found in the church about 100 yards of telegraph tape which interpreted the news that General Pilar and an American had been in command of the insurgents. That night word was brought in from the insurgent lines that they intended capturing Lawton's body. We knew that had there not been an American in that church who saw him fall, afe Filipinos would not have known he was dead."

TUAN WILL SUFFER.

Authentic Word of His Sacrifice By the Empress.

Washington, Oct. 1.—Several important dispatches were received today from China. Generally they tend to confirm the events recorded Saturday. From Canton, Consul McWade reports the issue of the decree punishing Tuan and his colleagues, so that there is no longer roubt as to the accuracy of Sheng's statement on that point. Mr. Conger also has received notification of the Chinese peace commission which was forecasted by Minister Wu's advices several days ago. Mr. Conger made no reference to the condemnatory decree, hence it is inferred that it was not issued when his dispatch was sent last Thursday.

The text of these two dispatches is as follows:

CONGER."
It is evident that the two viceroys mentioned are Liu Kun Yi, the viceroy of Nanking and Chang Chip Tung, the viceroy of Wuchang, the difference in spelling being in telegraphic transmission. There has been some question as to Yung Lu being a member of the commission but Mr. Conger's report settles all doubt. Minister Wu already had received an edict naming Yung Lu as one of the commission but this was questioned in other Chinese circles. The appointment is not thought to be satisfactory to any of the other powers as Yung Lu has made himself as disagreeable as Prince Tuan. He is generalissimo of the imperial troops and is regarded as mainly responsible for the persistent fight on the legations during the crisis. The other commissioners are highly acceptable.
